

# Weber Park Renovation Project

Thank you for your ongoing support of Weber Park, and your interest in its improvements.

Discussion about renovating the park has been ongoing for several years. In 2022, the City Council made it a priority to invest in Weber Park and approved \$3.3 million for park improvements. Though outreach from years past and through many meetings and workshops conducted by Roseville Parks, Recreation & Libraries (PRL) in 2022, a common theme was the importance of visibility into the park off of Main Street to increase the park's safety. It is also the City's goal to activate Weber Park with amenities that will draw residents. To gather as much resident input about desired amenities as possible, a survey was developed and has been offered to residents throughout the Los Cerritos and Roseville Heights neighborhoods at various opportunities and public events. The results are indicated below.

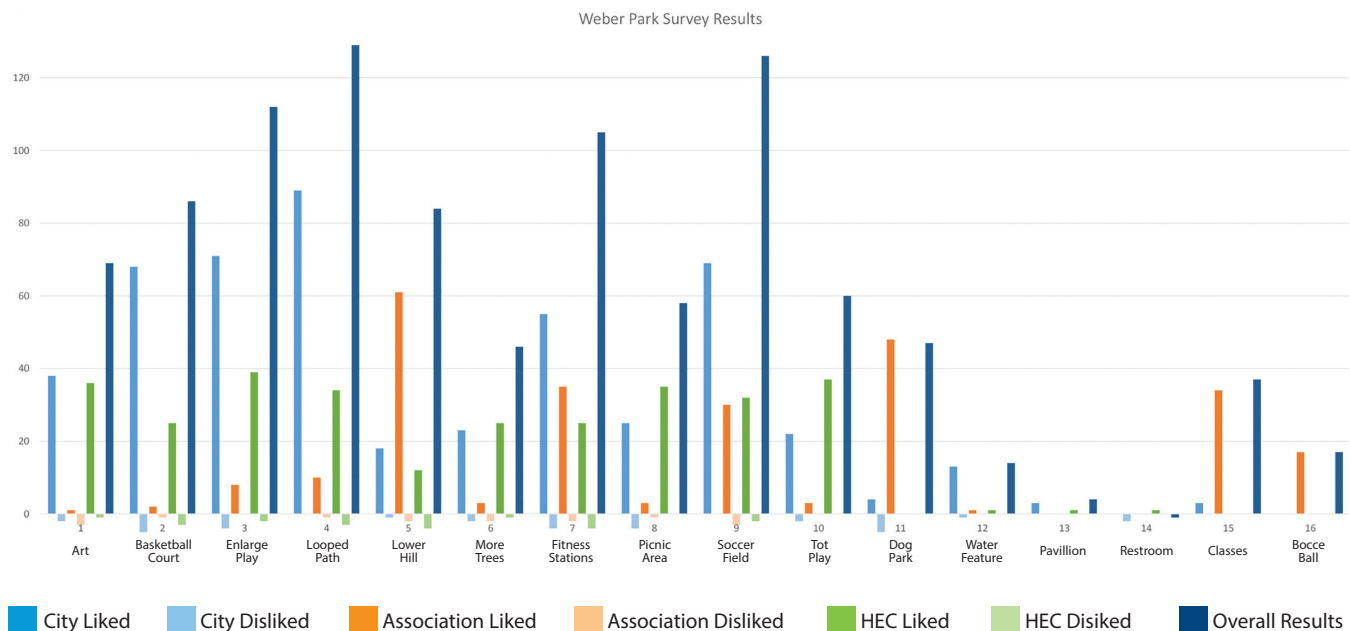

Thanks to the partnership between the City of Roseville, the Health Education Council and the neighborhood representatives from the Los Cerritos and Roseville Heights areas. Outreach efforts have been extensive. Efforts included neighborhood association surveys, surveys made available at numerous community events between May and August 2022, neighborhood meetings specific to the park and outreach to local youth such as the Boys and Girls Club and nearby Adventure Clubs.

## Feedback Received to date

- 121 Surveys from the neighborhood's previous outreach efforts
- 140 Surveys from PRL's recent outreach efforts (7 Spanish/133 English)
- 69 Surveys from HEC's recent outreach efforts (11 Spanish/58 English)
- Comments from 90+ attendees at public meetings
- Comments from 92 children

Results from all of these outreach efforts have been gathered and reviewed to guide the creation of a concept plan for an improved Weber Park. This concept plan is currently in development and will be shared with the public for comment and consensus in November (as outlined below).

## Results

# Weber Park Renovation Project

16 amenities are shown on the above bar graph. The amenities listed between art and the tot play were identified through community meetings and an early survey by the neighborhood. The amenities listed between the dog park and bocce ball were a result of input through the various surveys.

Each amenity has a **medium blue** bar indicating the number of people who “liked” that item through feedback from City efforts and surveys, a **light blue** bar for the number of people who “disliked” that item through feedback from City efforts/surveys, the **orange** bar represents the number of “liked” and **light orange** bar for “disliked” of the same item through surveys collected through neighborhood efforts and the **green** bar represents the number of people who “liked” and **light green** bar for “disliked” through the Health Education Council outreach efforts.

The **dark blue** bar for each amenity represents the total combined number of “liked” and “disliked” through all efforts.

## **The top six (6) “liked” amenities (listed in order based on numbers) include:**

1. Looped walking path
2. Soccer/open grass field
3. Add more to the play ground
4. Add fitness stations
5. Update the basketball court
6. Lower the park hill

## **Next Steps**

1. Review concept ideas with the Roseville Police Department (October 27).
2. Conduct a public workshop to present a concept plan (December 6). Postcards informing of this workshop will be sent to area residents in the Los Cerritos and Roseville Heights neighborhoods, as well as emails to those for whom we have email addresses.
3. If there is consensus on the concept, move to next step.
4. If there is still additional work needed to reach consensus, staff will revise the sketch and hold an additional public workshop.
5. Refine the plan based on feedback.
6. Develop a colored master plan rendering.
7. Conduct a two-week write-in period.
8. Refined master plan will be posted online with notification to past attendees, emails, neighborhood associations, social media.
9. If needed, conduct an in-person meeting/review.
10. Final plan presented to Parks & Recreation Commission (public meeting).
11. Final plan presented to City Council (public meeting).
